

Integrated Pack House for Fruits & Vegetables

GAIC has implemented the Integrated Pack House for Fruits & Vegetables at Naroda, Ahmedabad with a capacity of 5 MT Pre-cooling chamber, 15 MT Ripening chambers(5 MT x 3 Nos.), 300 MT Cold Storages (50 MT x 6 Nos.) and Cleaning/grading/sorting/packing line for round fruits. Processing area: 3000 Sq. mtr.

The project will facilitate exports of horticulture as well as agriculture produces. The project would also help farmers to get remunerative price for their produce. Moreover, it will also help to minimize agriculture/horticulture waste, create employment opportunities in rural areas by encouraging value added farm production.

The project is commissioned and started commercial operation. The Operation, Maintenance and Management of the project is handled by M/s. Cargo Service Center India Pvt. Ltd.

The project is implemented under the RKVY scheme.
