

### Center for Perishable Cargo at Air Cargo Complex, Ahmedabad Airport

GAIC has implemented a Center for Perishable Cargo at Air Cargo Complex, Meghaninagar, Ahmedabad with a capacity to handle 40 MT perishable goods per day, both horticulture and agriculture produces, and 30 MT cold storages (10 MT x 3 Nos.). Processing area: 1000 Sq. mtr.

It is expected that the export of perishable goods will get a boost and the farmers of Gujarat will get remunerative price for their produces. Moreover, it will also help to minimize agriculture/horticulture waste, create employment opportunities in rural areas by encouraging value added farm production.

The project is commissioned and will start commercial operation shortly. The Operation, Maintenance and Management of the project will be handled by M/s. Cargo Service Center India Pvt. Ltd.

The project is implemented under the RKVY scheme.
